# MNRg-Grease

This product was awarded CRDF1 from Malaysia Technology Development Corporation Sdn Bhd (MTDC) under Symbiosis Program. MNRg-Grease is a series of greases which consist of multipurpose, electrical, and automotive grease which provide high performance at low cost, environmental friendly and safe.

Stability, quality, and properties of the product have been tested using ASTM (American Society of Testing and Materials).

### International Awards

1. Silver medal, Formulation of Multipurpose Grease from Waste Emulsions and Red Gypsum. International Exhibition of Ideas-Invention-New Products (iENA 2015), Nuremberg, Germany.

### National Awards

1. Gold Medal, International Conference and Exposition of Inventions by Institutions of Higher Learning (PECIPTA 2017)
2. Gold Medal, Formulation of Multipurpose Grease from Waste Emulsions and Red Gypsum (From Waste to Wealth). 25th International Invention, Innovation & Technology Exhibition (ITEX 2013)
3. Gold Medal, Creation, Innovation, Technology & Research Exposition 2017 (CITREX 2017)

### Advantages

1. Readily available contact grease for the maintenance teams.
2. The contact grease has been proven to be suitable for mechanical equipment.
3. High performance at low price as compared to other greases.

### Prices

Multipurpose :  
RM 27.00 / 400 g | RM 337.50 / 5 kg

Automotive & Machinery :  
RM 60.00 / 400 g | RM 750.00 / 5 kg

Electrical Grease :  
RM 230.00 / 400 g | RM 2875.00 / 5 kg

# MNRg-Treat

MNRg-Treat is a system to treat wastewater from various industries by using coagulation agent to separate residue oil and water. This is the research results from 2012, which is able to treat polluted water to safer and cleaner water according to the Department of Environment standards. MNRg-Treat is a safe green technology product compared to existing chemicals in the market. It acts to treat water from oily waste up to 95% and fast in action to separate the oil from water in a timely manner.

### 1. International Awards

2. Silver medal, Seoul International Invention Fair 2017 (SIIF 2017)
3. Gold Medal & Special Award, International Invention Show, Croatia 2013 (INOVI 2013)
4. Gold Medal, Innovation and New Product Exposition (INPEX 2013), USA

### National Awards

1. Main Winner, Research Entrepreneur Award, Malaysia Commercialization Year 2019 (MCY 2019)
2. Gold Medal, G-Treat: Smart System for Water Sustainability. International Conference and Exposition of Inventions by Institutions of Higher Learning (PECIPTA 2017)
3. Gold Medal, Creation, Innovation, Technology & Research Exposition 2017 (CITREX 2017)
4. Gold Medal, Innovative Industrial Waste Water Treatment System Using Bio-Adsorbent (From Waste to Wealth). 24th International Invention, Innovation & Technology Exhibition (ITEX 2013)

### Advantages

1. It complies with Environment Quality (Sewage & Industrial Effluent) Regulations 2009.
2. Use Natural Bio-Coagulant.
3. Environmental Friendly Due to Its Optimum PH Value, Low Temperature (Does Not Require Heat) and Low Pressure.
4. Easy to Install, Maintain and Service the System.
5. Low Production & Maintenance Cost.

### Prices

1 Litre: RM 35.00  
25 Litre: RM 650.00  
200 Litre: RM 5000.00

# TriUMPH Moisturizing Hand Sanitizer

TriUMPH Moisturizing Hand Sanitizer helps preventing bacterial and germ infection while moisturizing the skin.

## Advantages

1. Kills 99.9% bacteria and germs.
2. Moisturizing and fragrant.
3. Lowest price compare many brands

Effective from: 1 Jan 2021

## Prices

100 mL: RM 10.00  
500 mL: RM 25.00  
1 Litre: RM 30.00
