

Industry & Defence Applications

Machinery & Equipment

- Maintenance cleaning for heavy-duty system

Military Vehicles

- Tanks, trucks, and armoured vehicles
- Fast cleaning for rapid deployment readiness

Infantry Equipment

- Safe for personnel handling
- Non-toxic and compliant

Naval & Warship Systems

- Marine-safe cleaning
- Corrosion-aware formulation

Powerful cleaning for mission-ready assets, without compromising safety or sustainability.

About Product

Engineered for cleaning military machinery, vehicles, infantry equipment, and naval assets, our biodegradable degreaser delivers powerful cleaning performance while maintaining environmental and safety standards.

- 1. Removes grease, oil and heavy contaminants**
- 2. Zero/low VOC formulation for safer use**
- 3. Environmentally friendly and biodegradable**
- 4. Suitable for sensitive and high-value equipment**

Product Range

01 Multipurpose Degreaser

A heavy-duty biodegradable degreaser for industrial, automotive and machinery use. Removes tough grease, oil, and grime with a zero VOC formula for safer, eco-friendly cleaning. Ideal for daily maintenance.

02 Biodegradable Degreaser

An eco-friendly degreaser for oil & gas, automotive, machinery, and plantation sectors. Delivers strong cleaning performance on grease, oil, and contaminants across various industrial applications.

03 Premium Biodegradable Degreaser

A high-performance, fully biodegradable degreaser with Halal, GMP, and NSF certifications. Designed for oil & gas, food & beverage, and pharmaceutical industries, ensuring powerful cleaning with strict compliance standards.

Customization

We provide application-specific formulation and technical consultation to meet operational requirements.

- Custom formulation based on environment and usage
- Compliance with regulatory and certification standards
- R&D driven product development
